About me

I am a Software Engineering graduate student at the University of Oulu, specializing in full-stack development with expertise in both front-end and back-end technologies. With strong proficiency in JavaScript and C#, I develop robust software solutions while continuously expanding my technical skills. My experience includes working with TypeScript, Vue.js, React.js, Node.js, Python, Java, and Dart. I thrive on tackling complex programming challenges and crafting efficient, scalable solutions while staying current with emerging technologies.

Experience

ICT - TRAINEE METSÄ GROUP SERVICES
Maintaining computers and equipment on the factory site. IT support Kemin Metsä Group staff.

ICT - TRAINEE ANDRITZ OY
Working in system support tasks involves troubleshooting technical issues, maintaining system stability, and ensuring optimal performance for users.

ICT - TRAINEE VARKAUS HOSPITAL
ICT Installation and support tasks. Assisting in the installation of the hospital's IT systems and as IT support acting for the hospital staff.

ON-THE-JOB TRAINING ANDRITZ OY
As an intern at Andritz Varkaus KRP (Power plant and steam plant profit unit)in the project department. The tasks were archiving and assisting project assistants

ICT - TRAINEE VARKAUS HOSPITAL
ICT Installation and support tasks. Assisting in the installation of the hospital's IT systems and as IT support acting for the hospital staff.
